## PUSH BUTTON OPERATED 6 LITRE SINGLE FLUSH

side supply variant

Illustrations shown may not represent product supplied

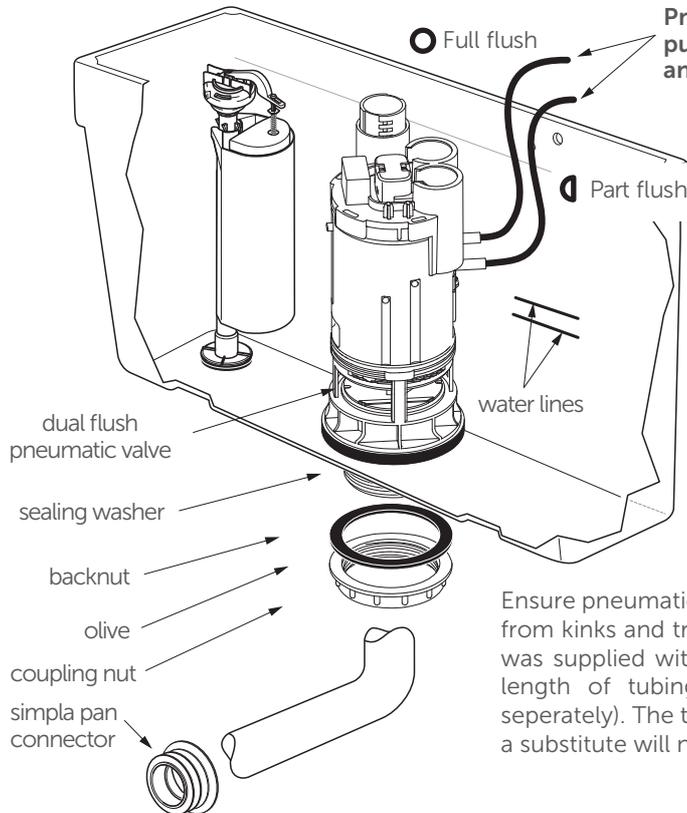

Pneumatic tube is a tight push fit onto pneumatic valve and push button

Ensure pneumatic tubing is undamaged and free from kinks and trappings. 0.8m length of tubing was supplied with the tank. Optional 3m (max) length of tubing is available. (SV3166 order seperately). The tubing **MUST** be as supplied and a substitute will not guarantee correct operation.

## FLUSH PLATE OPERATED (DUAL FLUSH)

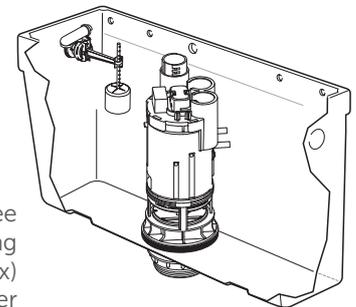

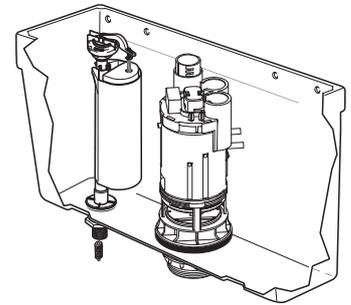

### • TOP SUPPLY

Pneumatic tubes are a tight push fit onto pneumatic valve and flush plate (not shown)

Ensure pneumatic tubing is undamaged and free from kinks and trappings. 0.8m length of tubing was supplied with the tank. Optional 3m (max) length of tubing is available. (SV3166 order seperately). The tubing **MUST** be as supplied and a substitute will not guarantee correct operation.

### • DUAL FLUSH VARIANTS

**E212567, E212467, S359967, S357967, S362267, S362367, S360467, S361767, S364067, S363667, S358967, S362067, S364367, S427067, S362167, S362667, EEM13590067**

# INSTRUCTION

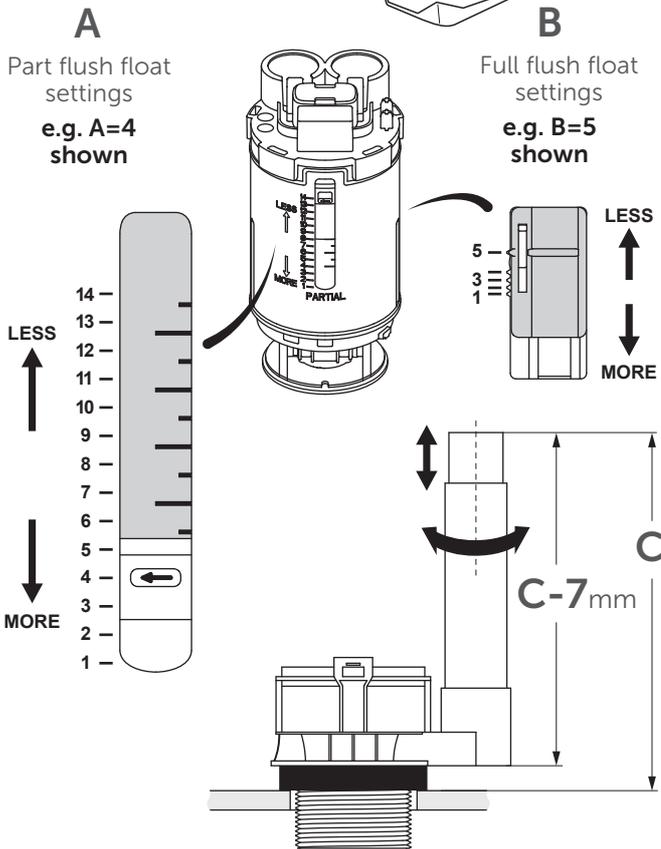

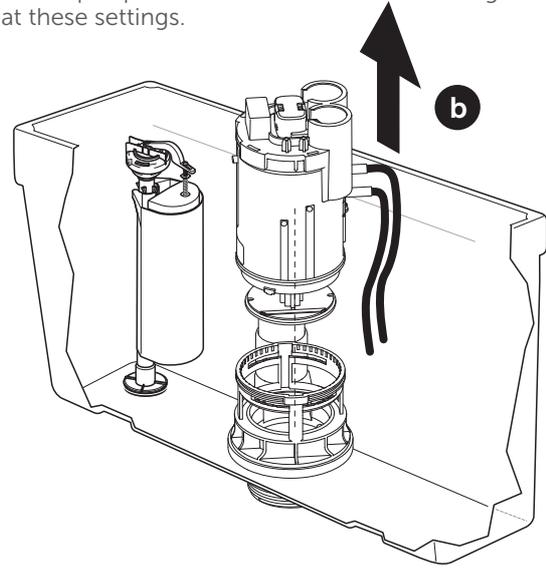

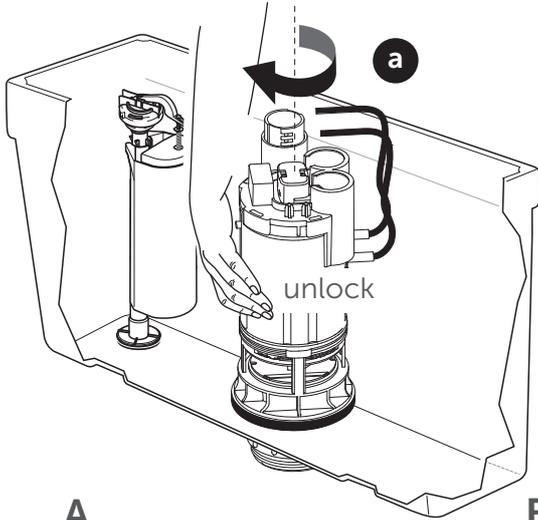

## OUTLET VALVE SETTINGS

If installed, turn outlet valve body anticlockwise and lift, parting it from outlet valve seat. Adjust valve settings to chart below by moving adjusters up or down.

## IMPORTANT NOTE

Not all wc pans are designed to flush at 4/2,6 litre. Check pan performance details before setting valve at these settings.

C is the overflow tube height measured from the base of the tank. Subtract 7 if measuring from the base of plastic cage without the seal.

Illustration may not reflect item as supplied.

All cistern components must be installed in accordance with UK water regulations. If in doubt please consult a suitably qualified professional.

	inlet	Litre	Water line	A	B	C
